

2018 Spring Training

HONEYWELL THERMOSTAT PRODUCT OVERVIEW

March 21, 2018 (10:00am-Noon); No Charge

Presented by Honeywell, this class will cover the full Honeywell thermostat product line. Become familiar with all of the different Honeywell thermostat options available, including Wi-Fi, RedLink, wireless sensing, remote sensing, temperature averaging and a wide variety of additional features and set up options. Also learn about the new D6 universal ductless split system controller being released in late March 2018.

LUXAIRE RESIDENTIAL VARIABLE CAPACITY SYSTEMS TRAINING

March 22, 2018 (8:00am-Noon); \$50/Attendee

This four hour course will introduce technicians to the new variable capacity inverter driven Luxaire AC and heat pump systems. The course includes component familiarization, application and installation, as well as system operations, commissioning, and diagnostics. This is required training in order to purchase and install this equipment.

AIR CONDITIONING FUNDAMENTALS AND TROUBLESHOOTING

March 29, 2018 (8:00am-2:00pm); \$60/Attendee

This class will cover the refrigerant circuit and its system components, as well as explain the functionality and construction of different metering devices and compressors. Troubleshooting methods will include how to diagnose the different electrical loads and switches found in this equipment. Designed for technicians new to the field and for those who want to increase their efficiency in identifying common failures that can occur. Real world scenarios will also be examined. Lunch and training materials included.

VACUUM PUMP SERVICE CLINIC

April 4, 2018 (10:00am-2:00pm); No Charge

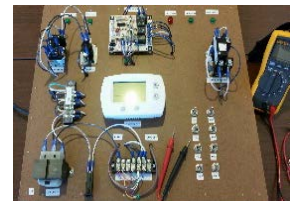

Bring your vacuum pump to American Air between 10:00am – 2:00pm on April 4th for a free oil change and micron test by Gian Bizzozero, our local Yellow Jacket sales representative. Gian will also be providing technical assistance, training materials, and new product demos. Don't miss out on this opportunity to make sure your vacuum pump is ready for the summer.

TROUBLESHOOTING LOW VOLTAGE CONTROLS

April 5, 2018 (8:00am-4:00pm); \$100/Attendee

In this 100% hands on class, attendees will learn the fundamentals of electrical circuits and troubleshooting. Knowing how to properly use a meter to troubleshoot circuits takes the guesswork out of service calls, saves time, and provides greater assurance during diagnostics. Attendees will practice an analytical approach to troubleshooting a variety of low voltage and control related problems on live training models. Lunch included.

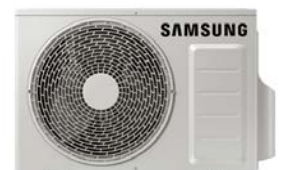

Hands-on training

SAMSUNG MINI SPLIT TROUBLESHOOTING

April 12, 2018 (8:00am-Noon); No Charge

Understand the most common service and diagnostic procedures for the Samsung RLC systems. System components, remote controller features, and system operation logic and control are all covered. This class will focus on understanding error codes and system troubleshooting, including the intelligent power module, compressor, sensors, and fan motors.

SpacePak – Factory Training (Master Class)

April 18, 2018 (8:00am-11:00am); No Charge

This training is provided by the manufacturer and will aid attendees with application, installation and troubleshooting of the Spacepak line of high velocity equipment. Completion of this course qualifies attending technicians for Authorized Dealer status. Authorized Dealers receive extended warranties on all installed products as well as marketing support assistance to help promote SpacePak in your specific territories. Authorized Dealers must attend Master Class training every 5-years to maintain their Authorized Dealer status.

AIRFLOW, MOTORS AND COMPRESSOR DIAGNOSTICS

April 19, 2018 (8:00am-Noon); \$50/Attendee

This course is tailored to technicians who want a working knowledge of the different motor and compressor types commonly found in residential HVAC. We will explore the relationship between these components and airflow, an often completely overlooked aspect of the system that can lead to widespread and long-lasting problems. Different methods of troubleshooting these elements of the equipment will also be covered.

HONEYWELL IAQ PRODUCT OVERVIEW

April 24, 2018 (10:00am-Noon); No Charge

Presented by Honeywell, this class will cover the full Honeywell home air quality product line. Become familiar with all of the different indoor air quality options available, including air cleaners, purifiers, dehumidification systems, UV treatment systems, and fresh air ventilation systems.

LUXAIRE RESIDENTIAL VARIABLE CAPACITY SYSTEMS TRAINING

April 26, 2018 (8:00am-Noon); \$50/Attendee

This four hour course will introduce technicians to the new variable capacity inverter driven Luxaire AC and heat pump systems. The course includes component familiarization, application and installation, as well as system operations, commissioning, and diagnostics. This is required training in order to purchase and install this equipment.

AIR CONDITIONING FUNDAMENTALS AND TROUBLESHOOTING

May 3, 2018 (8:00am-2:00pm); \$60/Attendee

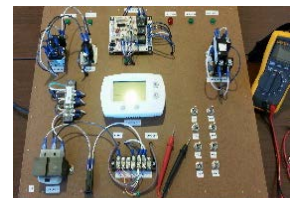

This class will cover the refrigerant circuit and its system components, as well as explain the functionality and construction of different metering devices and compressors. Troubleshooting methods will include how to diagnose the different electrical loads and switches found in this equipment. Designed for technicians new to the field and for those who want to increase their efficiency in identifying common failures that can occur. Real world scenarios will also be examined. Lunch and training materials included.

TROUBLESHOOTING LOW VOLTAGE CONTROLS

May 10, 2018 (8:00am-4:00pm); \$100/Attendee

In this 100% hands on class, attendees will learn the fundamentals of electrical circuits and troubleshooting. Knowing how to properly use a meter to troubleshoot circuits takes the guesswork out of service calls, saves time, and provides greater assurance during diagnostics. Attendees will practice an analytical approach to troubleshooting a variety of low voltage and control related problems on live training models. Lunch included.

Hands-on training

NATE and EPA Testing

Available upon request.

2018 AMERICAN AIR SPRING TRAINING SIGN - UP

Attendee 1: _____ Attendee 2: _____

Attendee 3: _____ Attendee 4: _____

Company: _____

Address: _____ City: _____ State: _____ Zip: _____

Phone: _____ Email: _____

Name of Course(s) You Would Like to Attend:

- ____ Honeywell Thermostat Product Overview - March 21, 2018 (10:00am-Noon); No Charge
- ____ Variable Capacity Systems - March 22, 2018 (8:00am-Noon); \$50/Attendee
- ____ Air Conditioning Fundamentals - March 29, 2018 (8:00am-2:00pm); \$60/Attendee
- ____ Vacuum Pump Service Clinic – April 4, 2018 (10:00am-2:00pm); No Charge
- ____ Troubleshooting Low Voltage Controls - April 5, 2018 (8:00am-4:00pm); \$100/Attendee
- ____ Samsung Mini Split Troubleshooting - April 12, 2018 (8:00am-Noon); No Charge
- ____ SpacePak Master Class Training - April 18, 2018 (8:00am-11:00am); No Charge
- ____ Airflow, Motors, and Compressor Troubleshooting - April 19, 2018 (8:00am-Noon); \$50/Attendee
- ____ Honeywell IAQ Product Overview – April 24, 2018 (10:00am-Noon); No Charge
- ____ Variable Capacity Systems - April 26, 2018 (8:00am-Noon); \$50/Attendee
- ____ Air Conditioning Fundamentals - May 3, 2018 (8:00am-2:00pm); \$60/Attendee
- ____ Troubleshooting Low Voltage Controls - May 10, 2018 (8:00am-4:00pm); \$100/Attendee
